How the quality of our education will be improved:

- * Our teachers will teach some lessons together to talk about how they can make them even better.
- * Children who may struggle with their learning make good progress to catch up with their peers.
- * Children who do not speak English as their first language are able to make as good progress as everyone else.
- * It doesn't matter if you are a boy or a girl, you are able to succeed in reading

How can we help improve our outcomes:

- * We do as well as or even better than other children in the country in reading
- * We are able to master the grammar, punctuation and spelling skills for our year group
- * We know the times tables for our year group and can apply them confidently to our maths
- * We know how we can get better at learning and bounce back easily from difficulties
- * Our reasoning and computer skills help our learning

What our leaders will be working on for us:

- * The subject leaders at our school will have really good knowledge about their subjects
- * Our SPLT will help adults to identify how good our presentation and GPS is in all our books.
- * Teachers will work together to ensure their knowledge of our curriculum and assessment is great across our whole school.
- * Leaders and governors will be making sure they check what great progress we are making and that we are all getting stimulating lessons.
- * Teachers will track our progress carefully and find ways of helping us if we need something different, especially in phonics and reading.
- * Our teaching assistants know how to help us and encourage us to be independent.
