GOVERNING BODY – REGISTER OF INTERESTS

Publication of Governor’s details and Register of Interests From 1st September 2015, governing bodies are under a duty to publish on the school website their register of interests, including the relevant business interests of governors and details of any other educational establishments they govern. The register should also set out any relationships between governors and members of the school staff including spouses, partners and relatives. Any governor failing to reveal information to enable the governing body to fulfil their responsibilities may be in breach of the code of conduct and as a result be bringing the governing body into disrepute. In such cases the governing body should consider suspending the governor.
