Termly Project

This year, in UKS2, our home learning will take the form of a termly project. The aim is to delve deeper into our Year 5 areas of learning and allow pupils to showcase an extended project. At the end of the term, pupils can upload all of their project (photos, videos, presentations, word documents) onto Google classroom. Teachers will then share these for all pupils to access and give feedback on. We will award bronze, silver and gold certificates for pupils' effort with their home learning project each term.

We look forward to seeing your creations!
