

YEAR 5 SPACE DAY

On Monday 8th November, Year 5 pupils will be taking part in a whole day of space themed activities.

During the day, they will have the opportunity to:

- **Learn about moon phases using Oreo biscuits**
- **Experiment with an online solar system simulator**
- **Design their own planet and imaginary extra terrestrials**
- **Make and test their own rockets**

If possible, please provide your child with a 500ml plastic bottle for rocket building.

We will provide everything else.

Please discuss the day with your child and encourage their excitement about this awesome topic!

Many thanks

Miss Zigler and Mr Hutchins
