Garten of Banban

Garten of Banban is currently available on the app store and is rated as suitable for ages 12 and over. It is essential to note that they are rated 12+, owing to their horror themes and content that may not be appropriate for younger audiences, particularly primary school children.

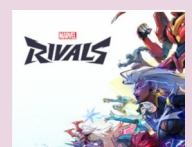

The nature of the content in the sequels includes elements that could be distressing or frightening, and as such, we must remain vigilant in ensuring that our children engage with age-appropriate materials. It is vital for parents to understand that just because an app is rated for a certain age group it does not always mean it is suitable for all individuals within that group.

We recommend having open discussions with your children about their gaming experiences and the themes presented in various apps. Encouraging them to express their feelings about the content can help in understanding their attitudes towards different themes—especially those that may be unsettling or inappropriate.

Marvel Rivals

Marvel Rivals is a highly popular multiplayer game where iconic superheroes play against formidable villains. The game is free –to play on PC and current-generation consoles but does have a feature that allows players to spend real money on cosmetic items for their characters.

Please see the attached information sheet for more details.
